

## *Technology to Access Financial Information*

This quarter, instead of our regular “newsy” newsletter, we would like to give you the opportunity to provide us with some direct feedback.

We would like to better understand how you use technology to access financial information; we have prepared a brief survey. This survey allows you to inform us about the avenues you use to keep track of your finances, and we hope it will enable us to identify better ways to communicate with you.

The survey is brief, only 14 questions, but will be a great help to us. As an added incentive, ***we will present one respondent with a \$100 gift card from JackStack BBQ*** (for dine-in, carry-out, or mail-order). So, if you want to be eligible for the gift card, be sure to identify yourself on Question 14.

Please click on the hotlink in your web browser to access the survey: <https://www.surveymonkey.com/s/Paragoncap>

In addition to finding better ways to communicate with you, we are always trying to find ways to enhance your returns. To that end, we have recently completed negotiations with Charles Schwab & Co. on your behalf, and have secured a reduction in the Prime Broker fee that Schwab charges on third-party transactions (Prime Brokerage fee Schwab charges clients on bonds we purchase from brokers other than Schwab). Going forward, ***the fee will be 40% less than it has been in the past.***

As you well know, we do not receive any money from trading commissions, or transaction fees, you pay to Schwab; the savings will simply stay in your account instead of going to Schwab.

As always, we thank you for your trust and support, and if you know of anyone who might benefit from our steady, fundamentally-based approach to investing, please contact us so that we might be able to help them as well.

Craig, Howard, Elizabeth, & Ward

*In the ongoing effort to continue to give our clients the most detailed, and meaningful, data available, you may have noticed that your Schwab statement now includes, within the detail sections, cost basis information on your individual securities. Although this is information which we provided to you on an ongoing, quarterly basis in the past, it is now available on your custodial statements. We trust that you find it useful. A copy of our SEC Brochure (formerly Form ADV Part II) is available at any time. This document describes who we are, what we do, and how we do it. Also, our Proxy voting policy is available to you at any time. If you would like to receive either of these documents, or inquire as to how your shares have been voted, please contact us at a phone number, or e-mail, listed below.*

*As a Registered Investment Advisor, Paragon Capital Management receives and collects non-public personal information from various activities and statements. Paragon does not disclose such information unless instructed to do so by the client. We maintain physical, electronic and procedural safeguards that comply with federal regulations to guard your non-public personal information*
